

## HOW WOULD YOU REACT IF YOUR 12 YEAR OLD CHILD READ THIS IN A SEX-ED CLASS TEXTBOOK?

Since there are sometimes sores and secretions outside the genitals, even playing around undressed can be dangerous. Syphilis, AIDS, hepatitis B, scabies, trichomoniasis and herpes can be passed through contact with the uninfected person's mouth. [Student Workbook, p.44]

## WOULD YOU BE UPSET IF YOUR 12 YEAR OLD CHILD'S TEACHER WAS GIVEN THIS SORT OF MATERIAL TO TEACH TO YOUR CHILD?

Any sore or tear on the penis can provide contact with an infected female's vaginal secretions. Any small sore or tear inside the vagina can provide contact with an infected male's semen. Intercourse which involves a body opening other than the vagina brings great risk since the lining of the mouth or rectum also may have small tears through which the virus can pass.

[Teacher's Manual, p.53]

## WOULD YOU BE ANGRY IF YOUR CHILD WAS TAUGHT THIS IN A SEX-ED CLASS?

Many options exist other than marriage in the case of teenage pregnancy. Abortion, single parenting, and adoption represent some other options and each carries profound ramifications. However, the best option might be something other than marriage.

[Video Discussion Guide, p.16-17]

WELL, IF YOU ARE BOTHERED WITH THIS MATERIAL, THEN YOU NEED TO FIND AN ANSWER TO THESE QUESTIONS:

## WHY IS ALL THE ABOVE CLASSROOM SEX TALK FOUND IN THE POPULAR "ABSTINENCE" CURRICULUM 'SEX RESPECT'?

The Alpha Center of Sioux Falls knows of this and other concerns with 'Sex Respect', yet they continue to promote and sell this curriculum. Why?

*The question we all need to ask ourselves, though, isn't as much why are they promoting this material - but rather why are so many of us willing to accept any form of classroom sex talk? For more information on the mis-leading that the "abstinence" publishing business is doing to Christian families, please order the critique on Sex Respect, produced by Human Life International of Gaithersburg, MD, that documents the above information and much more. Send \$4.00 to Rescue The Perishing, Box 115 Ocheyedan, IA 51354. Also inquire regarding the Christian alternative to open classroom sex talk and other resources.*

Titus 2:4-8

The self-esteem, self-love industry is based upon people's willingness and even desire to be deceived. After all, if one wants to feel good about himself and has not enough supportive evidence in his life for that, he will probably try to supply the evidence through blaming others for his misfortune, attempt to excel in some way to be at least as good as or better than others, or deceive himself into thinking that he better than he is... We think that individuals who continue to sustain their illusions in order to enhance or maintain their self-esteem, personal control, and optimism about the future are extremely unlikely to sense a need for God or his Son. If the positive illusionists cannot or will not face the truth about themselves, it is unlikely that they will face the truth about their deceitful hearts and thus they will be most unlikely to see the need for God. Such individuals are hiding beneath their positive illusions and will generally see no need for a Savior.
