Judicial Officers of Iowa District #3;

Lawyers and family members of the late District Associate Judge Cameron Arnold are telling me that he would be proud of our recent efforts (attached and below). Candidly, I grieve at the moral loss of the Iowa Judicial system. Nations go to civil war or fall when the majority of the population lose confidence in their Justice system. (Think English Civil War.) From Ferguson, MO to Minneapolis, MN the poor (regardless of color) have been ground down into poverty, misery and needless jail time (for non-violent offenses) by local courts and the attending social services systems. They've been plundered. (I'm ignoring the violent BLM Marxists who've coopted their cause. But am looking at the real poor being ground down by the justice system.)

But now the justice system in America has a problem, as President Trump is waking up to it as well. In June of 2019 he called Dallas, TX, former Asst. US Attorney, **Sidney Powell**, a "great attorney". Why? Because in her two books [Licensed to Lie](#) and [Conviction Machine](#) and multiple media appearances, she is revealing to conservatives that prosecutors, judges and the media at the federal and local level are perverting justice, suppressing exculpatory evidence, using fraudulent investigators reports (FBI 302s), stacking charges, making a fair trial to risky, etc. She particularly strikes hard at the USDOJ and names names. (If you haven't heard, she is Lt. General Michael Flynn's newest lawyer.) And around the country conservatives will soon be saying, "Wait a minute, is this what the inner-city poor have been saying for the last 25 years?"

Wait until the inner city poor and middle class Republicans realize they have something in common....a perverted justice system, serving its own ends. The late Judge Cameron Arnold of Spirit Lake saw this day coming 25 years ago.

Continue putting moral misfits on the bench and the day will come (probably after I'm gone from this earth to be with my Lord) and the anger in the streets will be focused on....the Court Houses. 'Own it' officers of the Court in NW Iowa. As you play your role in perverting justice it has a cumulative effect. Even the blue-collar saps that came up to us in Spencer yesterday, were seething mad about the gross injustice done to them by the Courts.

Meanwhile, the Cameron Arnold Judicial Reform Initiative, a special project of Rescue the Perishing keeps doing its meager part to stop such misfits from getting nominated. See our flier that went out across NW Iowa, below. And see the picture attached of our picket at the North side of the Clay County Courthouse yesterday. As of this writing I've not heard from the District #3 Court Administrator who they nominated.

P.S. I would still be pleased to receive an invitation to sit in on the next District #3 Judicial Conference and listen to the seriousness of what you folks deliberate on. I trust it's not mostly a drinking party. Cam Arnold and now Sidney Powell (p 141 Conviction Machine) both agreed that most of you people think "you are God." Do read Psalm 82 those of you who share such arrogance.

BTW, word is that Sidney Powell has accepted an invitation to speak here in NW Iowa this fall. Let me know if you want details as to her engagement. But, I'm not going to hold my breath.

Christos Kurios,
Paul R. Dorr
